Note: **D** is reserved for the more rare procedures. It will be arranged for an instructor to discuss and demonstrate these procedures with you.

There is a form that the instructor will sign off on. You are responsible for keeping a copy of these forms and providing one to the director for sign off.

All other procedures will have criteria for numbers to be met. Up to 30% of the required numbers can be done in a simulated fashion. Again, you will need to account for these numbers providing the forms.
