 The Zoom app will open on your device. (If the Zoom app does not automatically open and you are asked to download the app, follow the instructions to download the app. Once you have downloaded the app, go back to the email and click on the link to join your visit.)

3. You will be placed in the "waiting room." Someone from your care team will see that you are waiting to join the visit; they will confirm you are scheduled and then will enter you into the virtual visit. Once you're in the visit, the medical assistant will ask you a few questions to get you ready to see your clinician.

4. When you are entered into your visit, the "Join audio" screen will appear. Choose an audio option from the list provided. Note: If you choose "no audio," you will not be able to hear anyone. Selecting "Wifi or Cellular Data" automatically connects your device's microphone to the visit.

## Step 3: Controls During your Virtual Visit

These are the controls you can use during your visit:

Mute and Unmute: Switch between mute and unmute by touching the mute symbols at the bottom of your screen.

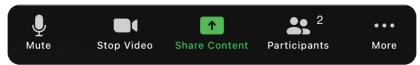

**Stop Video:** It's important to always use the video function during your virtual visit. If you need to turn your video off for a moment, you can turn your camera off by clicking on the camera symbol. To turn your video back on, click on the camera symbol again.

To get to additional controls, including chat and meeting reactions, touch on the "..." in the bottom right corner of your screen.

After touching the "..." you will see additional controls including "Meeting Settings":
